I'm looking for a schematic or manual for the WRL "Globe Trotter"  
transmitter, first sold by WRL in 1946.

Thanks!

G'morning all-

I've just updated my webpage to present some of the information on pre-1950 Panadaptors that I have found with much help from many on this list.

Thanks to all.

<http://home.comcast.net/~cbmcg/Panadaptors.html>

Comments and further information will be greatly appreciated.

Hi Gang!!

>My wife never tried to make calls on the S-line that lived here once... and  
>her sister once worked @ WeeKeeWachee gardens, the Fla glass-bottom boat  
>place

It's been a while since I've seen that movie, but if memory serves, Arthur Godfrey was in that movie, and he was a ham in real life. I believe that he was the one that used the rig in the movie. If you look close at the pic's Chuck put up, you'll see the mic is laying on the table. She's on the phone, not the radio.

Thanks!!

Yes - Godfrey was in the movie and played Doris' character's father.  
I'll have to watch it with the sound turned up the next time they  
show it at the end of July ;)

Saw a biography of actor Walter Matthau on the local PBS channel recently. He enlisted in one of the armed services in WW2 and turned out to have an aptitude for Morse code. He was so good that he became an instructor for airborne radio operators. Not exactly BA related, but interesting nonetheless. ;-)

BTW, Arthur Godfrey was K4LIB.

80-MC2M for the plug that fits the chassis connector, if that's what you meant.

I think Newark and RF Connections carry them.

They might also be available from Lyle Farmer 614-373-2545 or R&R 800-372-4287. These are somewhat old references so your mileage may vary.

Gang-

Here are the real basics of how to keep me happy, the list noise-free, and everyone able to enjoy BoatAnchors... Simple, easy, workable...

Do not send SPAM-type e-mail messages to the list.

Do not send attachments (attached files) of \*ANY\* sort to the list. This includes HTML shortcuts, v-cards, GEDCOM files, zipped files, and \*ANY\* other type of attachment.

Do not EVER forward virus warnings (which are 99%hoaxes) or send chain letters to the list.

Do not use HTML or RTF (rich text format) in messages sent to the

list.

DO keep e-mail messages to the list on topic and appropriate.

Do not post commercial messages.

Please refrain from posting "Ebay" type auction notices. Refrain from "seen on EBAY" posts...

DO be polite.

Do not flame other members of the list.

DO be considerate of the list members and list resources.

DO have fun!

Anyone have the manual for a Transcon 6? It is  
a small 6 meter transmitter and receiver converter  
that I picked up at the Sacramento swap meet last weekend.  
Fired it up last night, and it has quite a few problems.

Looked at both Bama and W7FG, but no listing for it.

Will be more than happy to pay for copying costs and postage  
or just buy it outright.

Thanks

as well as a list of Hammarlund, Millen & Mallory parts (NOS).  
Send me a note if you want a copy.  
The Ham/Mal/Mil parts are being sold as a lot.  
I use USPS Priority Mail for most all.

73, Dick, W1KSZ

Folks,

I have a collection of Navy TCS equipment that needs to  
find a new home. They're really nice little radios,  
but I just have too many rigs to deal with, and SOMething  
has to go (familiar story?). To whit:

Transmitter: TCS-5, COL-52245, Ser # 4150. Missing  
the knob and planet gears for the Antenna Load function.  
Otherwise original and in nice condition. This unit,  
like the receivers, has some speckling on the front-panel  
paint, typical of these rigs. \$50

Receiver #1: TCS-5, COL-46159, Ser # 1203. Few scratches  
scuffs and dings, but generally pretty nice. \$50

Receiver #2: TCS-12 (though top tag says "TCS-5"),  
CMX-46159, Ser # 12862. Missing the tuning chart on  
the front panel, has no shockmounts on the bottom,  
connector replaced with a Jones plug. Otherwise all

there and not hacked up. \$40

Original Manual for TCS-14 and TCS-15. Very nice  
condition. \$30

Manual copy for TCS-5, nicely produced. \$10

Set of NOS cables in very nice condition. \$40

Pair of NOS baseplates in exc condition \$20

Antenna loading coil box CML-47205 (TCS-12) \$10

Remote control box (exc condition--no pix) \$10

Power supply: This is the rarum/unobtainium original  
AC power supply, CKP-20309. It's been stripped down  
to bare metal, repainted with a very nice black wrinkle  
finish, the transformers have all been cleaned and  
repainted, and the unit rewired with the original  
cloth-covered wiring. This unit is in exceptionally  
nice restored condition. I've never seen another  
one in ANY condition! \$200

In an ideal world, I'd sell the whole package as a  
unit for \$425 total, and have it picked up here in  
Chapel Hill, NC. This world isn't ideal, so I'll  
entertain any reasonable offers, after waiting a day  
or so to see if anyone wants the whole shebang.  
Shipping will not be cheap, particularly for the power  
supply, which weights in at about 80# or so. Could  
deliver to VA and NC hamfests.. I have BAGS of 1625's  
and 12A6's, if you need them!

You can see pictures of all of these goodies at:

<http://www.cs.unc.edu/~jp/pix/tcs/>

73, and thanks for looking!  
John K4OZY

LST 325 is still looking for a TCS AC supply. I gave them a set with AC supply, RAK/TAL too....maybe if nobody pipes up you might consider a gift to them.

Unused, never erected, still in original packaging (opened only to read manual): 80-10M, 1.5KW rating. For info, see <http://www.radioworks.com/PDFCat04/38.pdf>. Current catalog price is \$105 plus shipping. I'll sell for \$75 and split shipping 50-50 with buyer.

Feedline NOT included.
